

CORPORATE PROFILE

Stereotaxis' proprietary magnetic systems and disposable devices allow physicians' to conduct precise, image-guided, computerized remote control interventional procedures designed to provide greater efficacy, efficiency, predictability, ease of use and safety for both routine and complex procedures in electrophysiology and interventional cardiology, including procedures in arrhythmia diagnosis and ablation, cardiac resynchronization therapy and complex occlusion recanalization. Physicians direct procedures from outside the x-ray field via a digital user interface with "point and click", "joystick" and "push button" controls. Stereotaxis has integrated its products with leading cath lab imaging technologies through alliances with industry leaders. The Company's core products have regulatory clearances and approvals in the U.S., Europe and Canada.
