(Name and telephone number, including area code, of the person to contact in connection with this report.)

Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2017.

Section 1 – Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

This Specialized Disclosure Report on Form SD (“Form SD”) of Stereotaxis, Inc. (“Stereotaxis”, the “Company” or “we”) for the reporting period from January 1 to December 31, 2017, is filed pursuant to Rule 13p-1 under the Securities Exchange Act of 1934 (the “Rule”). Capitalized terms not otherwise defined herein are defined in the Rule.

Stereotaxis evaluated its products and determined that our products contain “necessary conflict minerals.” This means that Conflict Minerals as defined in the Rule are present in products we manufacture or contract to manufacture and are used to achieve the required function, use or purpose of those products. Our determination and related disclosures relating to such necessary conflict minerals are included in Stereotaxis’ Conflict Minerals Report and are incorporated by reference herein.

Item 1.02 Exhibit

The Company has filed a Conflict Minerals Report as Exhibit 1.01 to this Form SD. Stereotaxis’ Conflict Minerals Report is available at <http://www.stereotaxis.com/legal/>. The website and the information accessible through it are not incorporated into this Form SD.

Section 2 - Exhibits

Item 2.01 Exhibits

Exhibit 1.01 Stereotaxis, Inc. Conflict Minerals Report for the reporting period January 1 to December 31, 2017

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the duly authorized undersigned.

STEREOTAXIS, INC.

(Registrant)

By: /s/ Martin C. Stammer

Name: Martin C. Stammer
Title: Chief Financial Officer

May 17, 2018

(Date)

Stereotaxis, Inc.
Conflict Minerals Report
For The Year Ended December 31, 2017

Introduction

This Conflict Minerals Report for Stereotaxis, Inc. (“Stereotaxis”, “we,” “us,” and “our”) is for the period from January 1 to December 31, 2017 and is presented to comply with Rule 13p-1 under the Securities Exchange Act of 1934 (“Rule”). Terms used in this report are defined in the Rule and Form SD. Refer to those sources and to SEC Release No. 34-67716 issued by the Securities and Exchange Commission on August 22, 2012 for such definitions.

Stereotaxis designs, manufactures and markets robotic systems and instruments for use primarily by electrophysiologists for the treatment of abnormal heart rhythms known as cardiac arrhythmias. We offer our proprietary *Epoch* Solution, an advanced remote robotic navigation system, for use in a hospital’s interventional surgical suite, or “*interventional lab*”. The *Epoch* Solution is comprised of the *Niobe* ES Remote Magnetic Navigation System (“*Niobe* ES system”), *Odyssey* Information Management Solution (“*Odyssey* Solution”), and the *Vdrive* Robotic Navigation System (“*Vdrive* system”), and related devices. The *Niobe* and *Vdrive* systems include sterilized disposable (consumable) components as well as capital equipment.

This Report describes the process and results of Stereotaxis’ Conflict Minerals program. Stereotaxis performed a reasonable country of origin inquiry to determine the source of necessary conflict minerals in our products, and in accordance with the Rule then undertook due diligence measures on the source and chain of custody of those necessary conflict minerals. The purpose of this due diligence was to determine if any of the necessary conflict minerals originated from the Democratic Republic of the Congo (“DRC”) or an adjoining country (collectively defined as the “Covered Countries”) and may not have come from recycled or scrap sources, to determine whether such products are “DRC conflict free.”

Consistent with the provisions of the Rule, this Conflict Minerals Report has not been audited by an independent private sector auditor.

Design of Conflict Minerals Program and Due Diligence Process

Stereotaxis has a Conflict Minerals program designed to be in conformance with the Organisation for Economic Co-operation and Development Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, 3rd Edition, including the Supplements on Tin, Tantalum and Tungsten and Gold (collectively, the “OECD Guidance”). In the context of the OECD Guidance Stereotaxis is a “downstream company” in the conflict minerals supply chain. Summarized below are the five due diligence steps taken which align with the OECD Guidance five-step framework:

1. Maintained a strong company management system:

- a) We have a Conflict Minerals Policy. The policy has been communicated to our direct suppliers and can be found on our website at <http://www.stereotaxis.com/legal/>.
- b) We have an internal cross-functional Conflict Minerals team that oversees the implementation of our Conflict Minerals program. The status of our Conflict Minerals program is reviewed with senior management. We maintain records relating to our Conflict Minerals program.
- c) We have a system of controls and transparency over our supply chain using the industry standard Conflict Minerals Reporting Template (“CMRT”), which is a supply chain survey designed to identify the maturity of our suppliers’ conflict minerals programs and identify the smelters and refiners that process the necessary conflict minerals contained in their products.

- d) We have informed our suppliers of our company policy, and our commitment to be DRC conflict free. Where suppliers are unaware of conflict minerals regulations, or have an immature process, we seek to educate them.
- e) We have a company-level grievance mechanism whereby anyone can confidentially call or email a concern or report a violation of a policy. This can be found in the Ethics and Commitment / Confidential Hot-line section of our website at <http://www.stereotaxis.com/legal/>.

2. Identified and assessed risks in the conflict minerals supply chain:

- a) We identified conflict minerals risks in our supply chain:
 - We identified all direct suppliers that supply us with products that might contain Conflict Minerals.
 - We conducted a Reasonable Country of Origin Inquiry (RCOI) with relevant suppliers of parts and materials used in products manufactured by Stereotaxis.
 - We requested our direct suppliers provide us with a completed CMRT. The CMRT includes a section identifying evidence of an active corporate conflict minerals program/policy by each respective supplier as well as a list of Smelters or Refiners in the supplier's conflict mineral supply chain.
 - We followed up with unresponsive suppliers, making multiple attempts to obtain information.
 - We reviewed CMRT and associated documentation provided by our suppliers for completeness and reasonableness. We categorized each supplier according to the responses provided.
- b) We assessed risks of adverse impacts by actively working to discontinue sourcing products from upstream suppliers when we identified a reasonable risk that they are sourcing from, or linked to any party committing serious abuses, consistent with Annex II of the OECD Guidance.

3. Designed and implemented a strategy to respond to identified risks:

- a) We identified the results of our RCOI and identified high risk suppliers to senior management.
- b) We have a risk management plan that includes seeking to reduce or eliminate high risk suppliers.
- c) We have an ongoing risk reduction and management program, which includes a goal that all future product designs are DRC conflict free, periodically reviewing and updating the conflict minerals status of our existing products and striving over time to reduce or eliminate non-conflict-free minerals from the supply chain.
- d) We monitored, and will continue to monitor changes in supplier conflict minerals status, as circumstances change with suppliers and as conflict minerals status ripples through the supply chain to end item manufacturers such as Stereotaxis.

4. Carried out independent third-party audit of supply chain due diligence at identified points in the supply chain:

- a) We engaged a third-party which has a comprehensive Verification, Outreach and Due Diligence Process related to the specific smelters or refiners which we identify as being in our supply chain.

5. Reported on supply chain due diligence:

- a) We publicly communicated our Conflict Minerals Sourcing Policy on our company website at <http://www.stereotaxis.com/legal/>.
- b) We publicly disclosed this Conflict Minerals Report on our company website at <http://www.stereotaxis.com/legal/>.
- c) As allowed by the Rule, obtaining an independent private sector audit of this Report was not required.

The content of any website referred to in this Report is included for general information only and is not incorporated by reference in this Report.

Reasonable Country of Origin Inquiry Results

Following our Conflict Minerals program described above, Stereotaxis identified 203 suppliers and original equipment manufacturers in our direct supply chain. We then identified the subset of those suppliers who provide us with components, materials and assemblies where Conflict Minerals might be present and necessary to functionality, or for which we were unsure whether the materials or components contained Conflict Minerals. We then performed a RCOI with those suppliers, and requested they supply us with a CMRT. From that subset of suppliers we received 131 CMRT's.

The 131 CMRT's we received contained a large number of smelter names for the facilities these suppliers and their upstream suppliers use to process Conflict Minerals, as well as the specific Conflict Mineral(s) used in their products. After correction, review, and removal of duplicate or alternate names, and elimination of entities we determined were not actually smelters, we identified 312 unique smelters.

Of the 312 smelters, our analysis leads us to believe that 60 of them are known to source, or there is reason to believe they may source, Conflict Minerals from the Covered Countries.

In accordance with the SEC final rules for Conflict Minerals sourced from Covered Countries, because some smelters in our supply chain were identified to be sourcing from Covered Countries, Stereotaxis is required to exercise, and has exercised, due diligence on the Conflict Minerals' source and chain of custody. Additionally, Stereotaxis is required to follow, and has followed, a nationally or internally recognized due diligence framework and report the results thereof in a Conflict Minerals report.

Due Diligence Process Results

Of the 60 smelters in our supply chain that source Conflict Minerals from the Covered Countries, Stereotaxis' due diligence review indicates:

- 58 smelters have active certifications or are in the process or renewing their certification as a conformant smelter by the Responsible Minerals Initiative (RMI) Responsible Minerals Assurance Process (RMAP). In addition, 7 of these 58 smelters also have London Bullion Market Association (LBMA) Responsible Gold Certifications.
- 2 smelters are non-conformant smelters and have no known certification by any relevant certifying body.

To the best of our knowledge, none of the smelters identified in our supply chain is known to source Conflict Minerals that directly or indirectly finances or benefits armed groups in the DRC or adjoining countries.

Stereotaxis did not discontinue business with any supplier simply because the supplier sourced from the Covered Countries. We support a conflict-free minerals trade in the DRC region.

Product Determination

We have not been able to confirm the identification of all smelters in our supply chain, nor confirm that all smelters believed to be in our supply chain are DRC conflict-free.

No smelter identified in our supply chain is known to us as sourcing Conflict Minerals that directly or indirectly finances or benefits armed groups in the DRC or adjoining countries.

Facility and Mine Information

The table below identifies the smelter or refiner facilities which, to the extent known as a result of our RCOI, processed the necessary conflict minerals contained in our products. A “Yes” entry in the last column indicates the smelter or refiner has received a conformant smelter designation from an independent third-party audit program.

Smelters or Refiners That Sourced from the Covered Countries

The table below lists the 60 smelter or refiner facilities which, to the extent known, processed the necessary conflict minerals in our products or products produced by companies in our supply chain that were sourced from the Covered Countries, and hence were subject to due diligence. The Conflict-Free Certification Status of each smelter or refiner is noted.

The Conflict-Free Certification Status designations are:

- RMAP: The smelter has an active certification or is in the process of renewing their certification as a conformant smelter in the Responsible Minerals Assurance Process (RMAP) from the Responsible Minerals Initiative (RMI).
- LBMA: The smelter has obtained a Responsible Gold Certification (RGC) from the London Bullion Market Association (LBMA).

<u>Metal</u>	<u>Smelter or Refiner Name</u>	<u>Smelter or Refiner Location</u>	<u>Conflict-Free Certification Status</u>

Country of Origin

The countries of origin of the Conflict Minerals processed by the smelters and refiners believed to be in our supply chain include the following countries.

Gold:

Argentina; Armenia; Australia; Austria; Belgium; Bermuda; Bolivia; Brazil; Burundi; Cambodia; Canada; Chile; China; Colombia; Congo (Brazzaville); Czech Republic; Djibouti; DRC- Congo (Kinshasa); Ecuador; Egypt; Estonia; Ethiopia; Finland; France; Germany; Ghana; Guinea; Guyana; Hong Kong; Hungary; India; Indonesia; Ireland; Israel; Italy; Ivory Coast; Japan; Jersey; Kazakhstan; Korea, Republic of; Kyrgyzstan; Laos; Luxembourg; Madagascar; Malaysia; Mali; Mexico; Mongolia; Mozambique; Myanmar; Namibia; Netherlands; New Zealand; Niger; Nigeria; Papua New Guinea; Peru; Philippines; Poland; Portugal; Russian Federation; Rwanda; Saudi Arabia; Sierra Leone; Singapore; Slovakia; South Africa; Spain; Suriname; Sweden; Switzerland; Taiwan; Tajikistan; Tanzania; Thailand; Turkey; United Arab Emirates; United Kingdom; United States; Uzbekistan; Viet Nam; Zambia; Zimbabwe.

Tantalum:

Angola; Argentina; Australia; Austria; Belarus; Belgium; Bolivia; Brazil; Burundi; Cambodia; Canada; Central African Republic; Chile; China; Colombia; Congo (Brazzaville); Czech Republic; Djibouti; DRC- Congo (Kinshasa); Ecuador; Egypt; Estonia; Ethiopia; France; Germany; Ghana; Guinea; Guyana; Hungary; India; Indonesia; Ireland; Israel; Italy; Ivory Coast; Japan; Jersey; Kazakhstan; Kenya; Korea, Republic of; Laos; Luxembourg; Madagascar; Malaysia; Mali; Mexico; Mongolia; Mozambique; Myanmar; Namibia; Netherlands; Niger; Nigeria; Peru; Philippines; Poland; Portugal; Russian Federation; Rwanda; Sierra Leone; Singapore; Slovakia; South Africa; South Sudan; Spain; Suriname; Switzerland; Taiwan; Tanzania; Thailand; Uganda; United Kingdom; United States; Viet Nam; Zambia; Zimbabwe.

Tin:

Angola; Argentina; Armenia; Australia; Austria; Belgium; Bolivia; Brazil; Burundi; Cambodia; Canada; Central African Republic; Chile; China; Colombia; Congo (Brazzaville); Czech Republic; Djibouti; DRC- Congo (Kinshasa); Ecuador; Egypt; Estonia; Ethiopia; France; Germany; Guyana; Hong Kong; Hungary; India; Indonesia; Ireland; Israel; Ivory Coast; Japan; Jersey; Kazakhstan; Kenya; Korea, Republic of; Kyrgyzstan; Laos; Luxembourg; Madagascar; Malaysia; Mexico; Mongolia; Morocco; Mozambique; Myanmar; Namibia; Netherlands; Niger; Nigeria; Peru; Philippines; Poland; Portugal; Russian Federation; Rwanda; Sierra Leone; Singapore; Slovakia; South Africa; South Sudan; Spain; Suriname; Sweden; Switzerland; Taiwan; Tanzania; Thailand; Turkey; Uganda; United Kingdom; United States; Uzbekistan; Viet Nam; Zambia; Zimbabwe.

Tungsten:

Angola; Argentina; Australia; Austria; Belgium; Bolivia; Brazil; Burundi; Cambodia; Canada; Central African Republic; Chile; China; Colombia; Congo (Brazzaville); Czech Republic; Djibouti; DRC- Congo (Kinshasa); Ecuador; Egypt; Estonia; Ethiopia; France; Germany; Guinea; Guyana; Hungary; India; Indonesia; Ireland; Israel; Ivory Coast; Japan; Kazakhstan; Korea, Republic of; Laos; Luxembourg; Madagascar; Malaysia; Mexico; Mongolia; Mozambique; Myanmar; Namibia; Netherlands; Niger; Nigeria; Papua New Guinea; Peru; Philippines; Portugal; Russian Federation; Rwanda; Sierra Leone; Singapore; Slovakia; South Africa; South Sudan; Spain; Suriname; Switzerland; Taiwan; Tanzania; Thailand; Uganda; United Kingdom; United States; Viet Nam; Zambia; Zimbabwe.

Steps to be Taken to Mitigate Risk

For the next reporting year, Stereotaxis plans to continue to work with our suppliers as needed to help them understand and satisfy our conflict-free expectations. We will continue to monitor the progress of suppliers which report to be sourcing from non-conformant smelters believed to source conflict minerals from the Covered Countries, work to improve supplier response rates, and continue to improve our internal due diligence determination process.

Additional Risk Factors

Our conflict minerals disclosure is made in good faith and based on best efforts. However, other factors could have led to errors in the disclosure. They include, but are not limited to gaps in supplier data, error in supplier knowledge, gaps in smelter auditing process, errors in public data, errors in language translation, and delays in reporting data through the lengthy supply chain that exists between the smelters or refiners and Stereotaxis.
